Re-board Training

Want to be part of a winning team?

The Re-board Training program is a foundation course developed to aid converters and print houses in the conversion of Re-board in an effective manner using 'Best Practices', correct design features, equipment and accessories. It is also designed to familiarize sales personnel with Re-board, the unique selling features and range of potential applications.

Fore more information contact Mr Danevert Åsbrink (danevert.asbrink@storaenso.com) or one of the three training centers directly.
